

CARITAS DATA'S CHARITY DATABASE

COMPREHENSIVE DATA ON OVER 15000 CHARITIES

Caritas Data's Charity Database includes comprehensive data on over 15000 charities in the UK. Collated from reports and accounts going back ten years and updated regularly, the information is a trusted source of financial information on charities and is used to compile Caritas Data's charities publication in hardcover and online.

Ranked by up to 40 performance indicators, we have a wide range of selection criteria to choose from, including a comprehensive breakdown on financial information such as income, expenditure, balance sheet and cashflow. You can also select advisers to these charities, including solicitors, bankers, accountants and investment managers. So whether you wish to obtain comprehensive information for in-depth analysis, or a more targeted list we can tailor data to your bespoke needs.
